

LaRocco PSR Power Supply

Technical Features and Specifications: Not for Redistribution

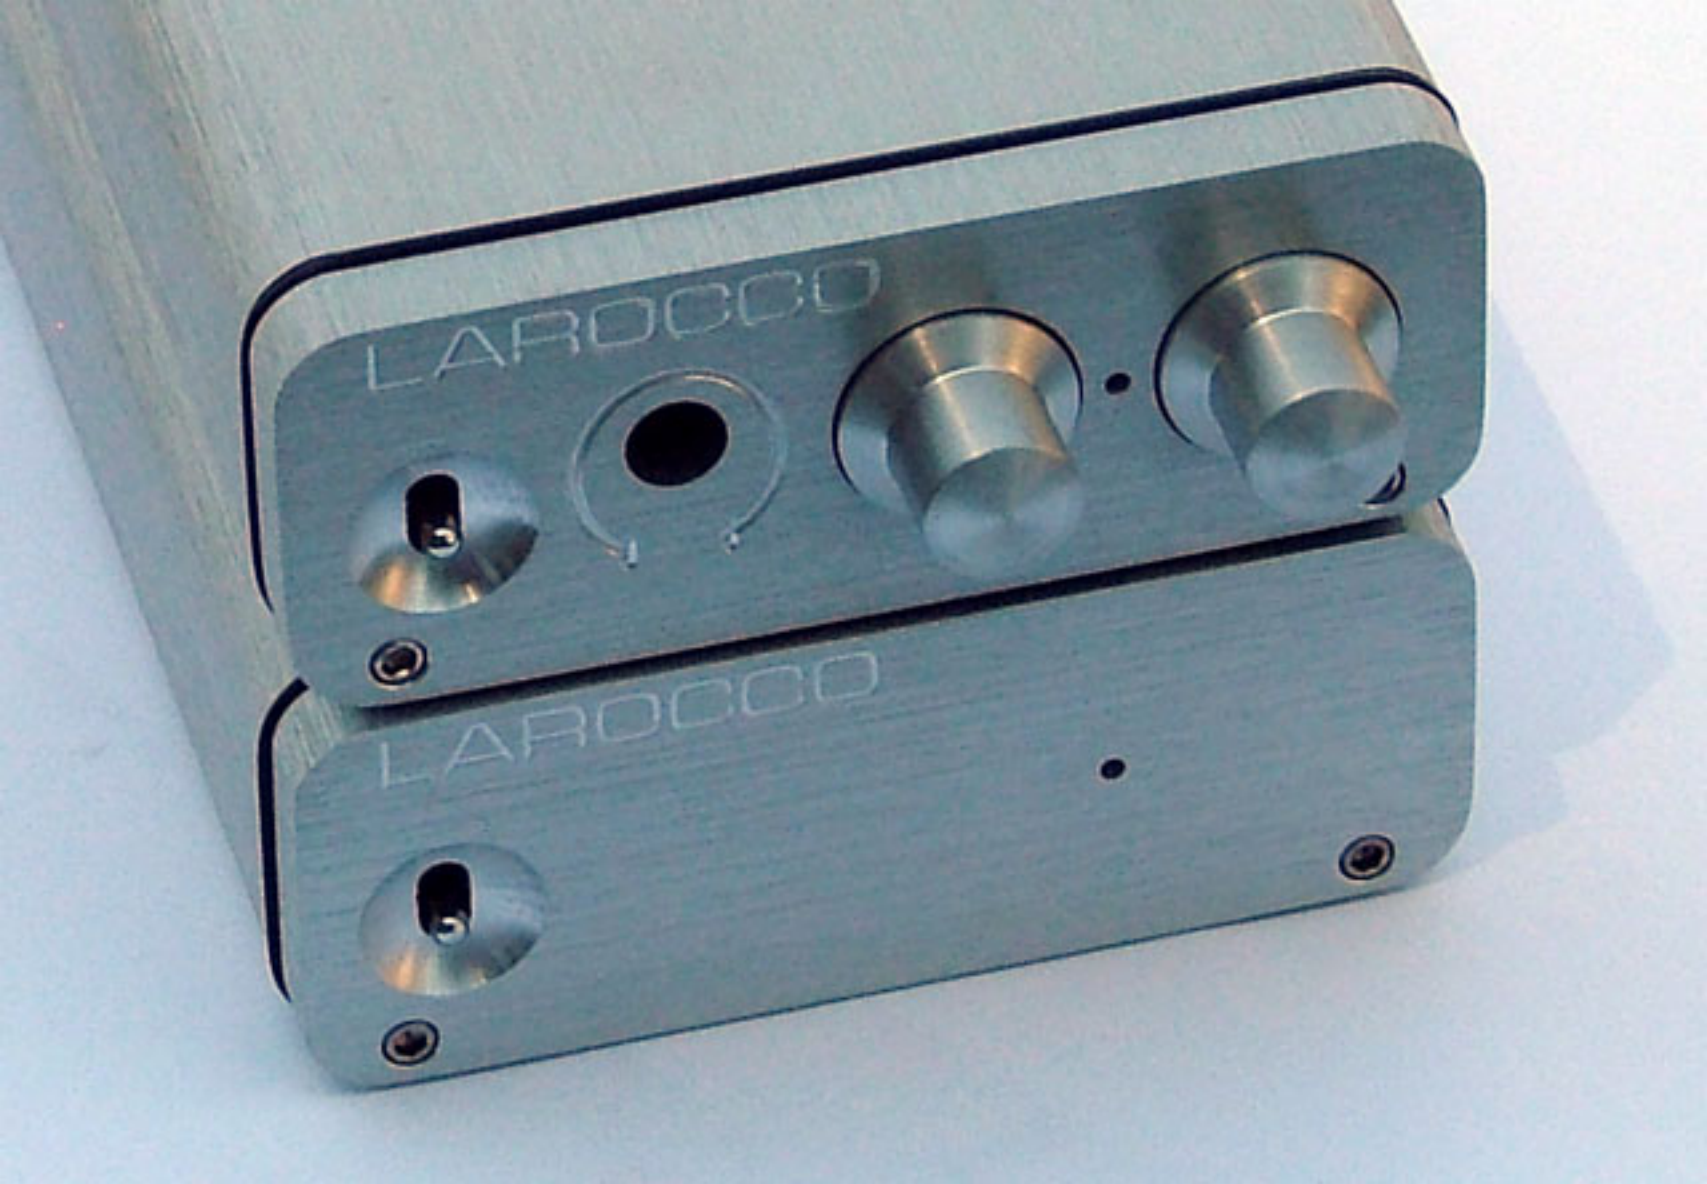

CAUTION: High Voltage

This Manual is provided as a technical reference for qualified individuals to ascertain required information as to the general functionality of the LaRocco PSR device.

The LaRocco PSR is an AC powered Supply. Internal AC wall voltages can cause severe bodily harm and possible death. The PSR is not a user serviceable device. Only qualified professionals are legally permitted to perform service.

LaRocco Audio does not condone tampering with any internal component including but not limited to DC output Voltage or input AC Voltage selection. The PSR Supply input voltage selection is performed before shipment to the designated region or country.

LaRocco Audio is not responsible for any damages resulting from tampering with the internals of the PSR Supply
